ENVIRONMENTAL POLICY

Queensland Cable Repairs aims to achieve a high standard of environmental sustainability in conducting our business as a competitive organisation to the mining & manufacturing industries.

We are committed to:

- Maintaining a management system based on the requirements of ISO 14001.
- The protection of the environment, including prevention of pollution and other specific commitment(s) relevant to the context of our organisation.
- Fulfilling our compliance obligations.
- Continual improvement of our environmental management system to enhance environmental performance.
- Continuously improving the processes and prevention of pollution to minimise the environmental impacts resulting from our operations.
- Educating, training and motivating employees to make them aware of their environmental responsibilities and accountabilities, to carry out tasks in an environmentally responsible manner.
- Considering environmental issues within all business strategies and initiatives, ensuring that a continuous professional development strategy remains core to our business goals.
- Communicating with all stakeholders including local government and community on environmental issues and where appropriate, contributing to the development of policies, legislation and regulations that may affect our operations.
- Providing regular monitoring and reporting of our environmental performance to stakeholders.
- Using a suitable contractor to recycle or dispose of waste generated by our processes.
- Defining our environmental goals and objectives within the Objective Plan and reviewing the set goals and objectives during the Management Review process to ensure suitability to purpose and context of our organisation.
- Ensuring that this policy is included within our Induction Process to raise environmental awareness to our employees.
- Reviewing our company policies during our Management Review process to ensure continuing suitability.
